**STANDARD CERTIFICATION**

- AS 2210.5:2019 OB PO E SR FO AN
- ASTM F2892-18 EH

**REUSE. RECYCLE. REMAKE.**

It's our commitment to the community to provide products that families can feel good about wearing. From Australian made production to our recycling program, we're doing everything we can to reduce our carbon footprint.

**WHAT IS THE PVC RECYCLE PROGRAM?**

The PVC Recycle program is an initiative of the Bata Shoe Company of Australia to reduce the amount of worn PVC gumboots being disposed of into landfill. Bata's aim is to re-process this waste into the raw materials to create brand new Bata PVC gumboots and help save the planet. Our main objective is to have zero used/worn PVC gumboots being disposed into landfill. To help our customers responsibly dispose of their used boots we are working to establish recycle disposal bins nation wide in collaboration with our distributors.
